

Schedule 1 - Ecological Sites

Ecological Sites are areas of *significant indigenous vegetation*, and *significant habitats of indigenous fauna*.

Notes: All *trees* that are within the *urban environment* are specifically identified by street address or legal description, and are located in indented tables under the *Ecological Site* to which they apply.

The Rules in the District Plan apply to both the significant *indigenous vegetation* within the whole *ecological site* including the identified *trees* on the named properties. This includes any parts of a *tree* overhanging from an *ecological site* on to adjoining properties.

Abbreviations within the tables read as follows:

District Scheme Register - Ōtaki, Horowhenua or Kapiti (**DSR (O, H or K)**),
Department of Conservation (Number in Inventory of Significant Indigenous Flora and Fauna) **DOC**,
Historic Places Trust (Category I or II Classification) (**HPT (I or II)**),
Kapiti Coast District Council (**KCDC**),
Kapiti Environmental Action Inc (**KEA**),
Kapiti Historical Society (**KHS**), National Tree Register (NZIH) (**NTR**), Ōtaki
Historical Society (**OHS**),
Tree Covenant (protection of *trees* through *subdivision*) (**TC**) and
Greater Wellington Regional Council (GWRC).

District Plan ID	Name	Location	Size	Type	Description/Significance/ Dominant Habitat or Vegetation	Significance
K001	Lake Waiorongomai	Lake Waiorongomai, North Ōtaki 1,780,995 E 6,052,728 N	15.12 ha Foxton (15.1ha), Not classified (0.02 ha)	Dune lake	Best dune lake with outflow to the sea in the Kapiti District. Despite stock damage, has open water to dry lake margin vegetation sequence. Wetland habitat is nationally rare, and dune vegetation is rare in Foxton ED. Provides important habitat for wetland species including kapungawha (<i>Schoenoplectus tabernaemontani</i>). Under considerable threat from stock and drainage. K231	Te Horo Beach Dune	Rodney Avenue and Sims Road, Te Horo 1,776,823 E 6,046,357 N	13.35 ha Foxton (2.07ha), Not classified (11.28 ha)	Gravel beach and dune approx.4.5km long 100m wide, turf and mat plants, wind shorn shrubs and trees, exotic species.	Stony beach ridges with <i>indigenous vegetation</i> are nationally Endangered rare ecosystem and rare in Foxton ED. Most intact example within Kapiti District, but not Wellington region. The gravel originates from the Ōtaki River; excessive gravel extraction could put this feature at risk. The ridge occurs between the driftwood-covered storm berm and is backed by a small sand dune belt. Vegetation grades from turf and mat plants to wind-shorn shrubs and trees. Pingao, Coprosma acerosa (both At Risk-Declining), and other native reeds and grasses occur the sand dune. Red-billed gull (Threatened-Nationally Vulnerable), Tetragonia tetragonoides (At Risk-Naturally Uncommon) reported. This stretch of dunes is important to the <i>hapū</i> of Ngā Hapū o Ōtaki (Ngāti Raukawa ki te Tonga) for its ecological richness, numerous battles were fought and lives were lost, and driftwood collection. The wood also provides habitat for fauna.	Overall: Yes RPS23a: Yes RPS23ab: Yes RPS23c: No RPS23d: Yes RPS23e: Yes
K233	Forest Lakes channel	Forest Lakes Road. North of Ōtaki, west of SH1 near northern District boundary. 1,783,184 E 6,050,965 N	4.64 ha Foxton (4.64ha)	Old drainage canal for Lake Waitawa, and surrounding wetlands	This canal originally drained Lake Waitawa. Surrounded by wetlands that buffer the canal and lake. Inclusion on tangata whenua or archaeological grounds. Wasn't fished extensively by Ngā Hapū o Ōtaki (Ngāti Raukawa ki te Tonga), but was still a valued birding and cultivation area. It also contributed to the flow into the wetlands which fed into the Nga Totara Lagoon which was fished. Lake eel are the preferred eel for Ngā Hapū o Ōtaki (Ngāti Raukawa ki te Tonga) and the wetland swamps and lakes in this area produced a highly valued eel that was dark in colour. Ti Kouka were also a valued wetland food source with the centre of the shoot boiled with small eel and puha. Contains perch, tench & rudd for coarse fishery.
